# Running Scenario:

## Create Experts

- Authorized narrative on sanctioned networks

## Suppress Questions

- “Not like the flu” despite EVERY model of infection at University of Washington and Johns Hopkins being 100% based on the flu

## Focus on 1 story

- Daily “infection” and count despite evidence that:
  - There are not adequate or reliable tests
  - No scientific evidence for distancing, masks, or treatment other than computer models with disproven assumptions

## Monitor Response

### • Narrative Propagation

- Recitation of “Experts”
- Denial of “Experts”

### • Behavior Compliance

- Social Distancing
- Self-harm (Unemployment)
- Business destruction
- Enthusiasm over bribes (checks)

### • Divergent

- Other topics – Vaccination, 5G, wealth distribution, N.W.O., Conspiracy, etc.
